Accessories for loading docks

LED DOCK LIGHT

Installing a light on the loading dock **illuminates the vehicle** during loading and unloading, **preventing accidents** caused by poor lighting.

To ensure loading dock safety and optimal worker visibility, adequate task lighting is essential.

Alapont LED lights provide brighter illumination inside trailers, creating a safer work environment with **minimal energy consumption**.

- Alapont LED lights have overheat and reverse polarity protection.
- They do not emit electromagnetic interference and are resistant to its effects.

REGULATIONS AND CERTIFICATION

COMPLIANT WITH EMC DIRECTIVE 2004/108 / EC

TECHNICAL DESCRIPTION

DM01 LED DOCK LIGHT

TOTAL LENGTH (EXTENDED ARM)	1000 mm
ADJUSTMENT RANGE	180°
POWER SUPPLY (WITH BUILT-IN SAFETY FEATURES)	24/20V
STEEL PROFILE	40 x 30 x 2 mm
POWER CABLE	2x1 mm
POWER CABLE LENGTH	1500 mm
LIGHT INTENSITY	1500 Lm
POWER SUPPLY CONNECTION	Single phase 220V
